By gland ing over the catalogue it can readily seen that liberal premiums have been offered, especially for agriculture al and stock displays. We bespeak coss for the association.

EV. NED FORREST, the new Congregational pastor, arrived Congregational pastor, arrived Tuesday with his family and they are now established in the parsoninge. He will enter upon his work at once and preach next Sabbath, both morning and evening. Mr. W. Q. Henderson, the attorney, attended Mr. Forrest's church in El Reno and gives assurance that he is a very attractive preacher. Begarding his departure from his late field at Bevier, Mo., the local paper of last week has this to say: "Rev. Ned Forrest will sever his connection with the English Congregational church here, July 28th. He has accepted a call to the First Congregational church at Vinita, I. T., where he will deliver his first sermon, August 4th. Oatale, were visiting the Misses Gore at Bins-jacket last week and passed through here Mr. Forrest finds it impossible to remain here on account of his health. Rev. Ned Forrest has exerted a noble effort for the past two and a half months to bring sinners of Bevier to repentance and to Christ, and this too when he was scarcely able at times to stand in the pulpit, owing to the effects of a bad case of asthma. Mr. Forrest has delivered while here some of the most powerful and beautiful sermons we have ever heard, and succeeded by his zeal in converting some few souls to believe in Christ and the gospel. Mr. Forrest and family will be greatly missed by the people of Bevier, and we hope that his new

field in the Indian Territory will be

so agreeable climatically and other-

wise, as to restore him to perfect

health, so he can continue for many

and humanity."

ICYCLES have no doubt "come to stay" and with the advanceto stay" and with the advancement of the good roads movement will become a prominent factor in transportation subjects of no mean proportions. In view of this fact and the cost which now deters many from owning wheels, the following extract | new church from a New York letter to the Pitts-Estey organs are the fovorite. Frank burg Dispatch, becomes quite interesting: "Something of a startling nature is about to drop in wheel land. The increase in salesrooms, academies tion, near business part of town, for and cranks, which is apparent to the most causual observer, has naturally caused more or less talk concerning the profits to manufacturers and agents. Lots of people who have been planking down coin of the realm to the tune of \$100 for an article which can profitably be sold for a great deal less than half that sum, will no doubt be pained to learn that this time next from Delaware court house to this year, according to a gentleman who should know, machines of standard make will be retailed in this market A self-teaching music chart-learn for \$30. The business man engineeryou to play in thirty minutes—given ing this commercial revolution is at present in town. He is authority for the statement that in April, 1896, a well known company will have on hand ready for the trade and the tivities-which did not take place uncranks 400,000 bicycles, which will be sold at \$30 apiece. He would not go into details, further than to assure me that this statement would be verifled as soon as the combine now being formed to break prices is completed. The company will, of course, reaps fair profit from every wheel, will stop its falling out, and if turning even at the low prices stated. What the big monopolies, now virtually in or. For sale by P.
